The Organization

Puro is a brand under the registered charitable society – Shramik Naari Sangh. Sa-Ni-Sa thrives to integrate the talent of contemporary and less-privileged women to build an ‘inclusive’ society. The management and creative side of the Society represents a team of like-minded women from mainstream who initiate projects with the objective of economic uplift and empowerment of less-privileged women in India.

Sa-Ni-Sa’s reform initiatives are aimed at mitigating the dire social and economic conditions that undermine the progress of less-privileged women. We engage enterprising women in programs that utilize their skills and train them to scale newer heights, foster a sense of entrepreneurship and above all, create opportunities to attain financial independence.
